The Human Locomotive should be carefully engineered, otherwise it may run off the track of life at any moment. To keep its delicate internal machinery in perfect trim, or to put it in good working condition when out of order, is the peculiar province of

Tarrant's Effervescent Seltzer Aperient. The thoroughness with which it cleanses, without irritating the bowels, the tone and vigor which it imparts to the stomach; its appetizing effects; its cooling, refreshing operation in fever; the relief it affords in headache; its antibilious properties, and its superior merits as a general corrective, justify the assertion that it is, beyond all comparison, the most valuable family medicine of the age.
